

MCULE EXPRESS BUILDING BLOCK COLLECTION

Dispatched within 24 hours, delivered in 1-2 days (EU) and 1-4 days (US)

Time is of the essence - especially in the highly competitive field of drug discovery. To help researchers move faster and work more efficiently, we've updated the **Mcule Express Building Block Collection**. This **expanded set includes fast-delivery reagents** that can reach the doors of EU/US research groups **within just a few days**.

The key features of the updated **Mcule Express Building Block Collection**:

- **All samples stored at Mcule**
- **Shortest possible delivery time** - EU and US locations reachable within 1-4 working days
- **Next-day or same-day dispatch** via the robotized Mcule Express Inventory System™
- **Pre-weighed pack sizes** of 100mg and 1g
- **Continuously expanding** with new supplier stocks (latest release contains over 6000 unique building blocks and reagents)
- **Custom formatting** available

THE MAIN BENEFITS OF THE MCULE EXPRESS BUILDING BLOCK COLLECTION

REDUCE DMTA CYCLE TIME

- Reduce delivery time to 1-4 working days from the usual 2-6 weeks

RELIABLE BUILDING BLOCK SOURCE

- Exceptionally high delivery rate
- Preweighed in multiple 100mg and 1g packages

DIVERSE SET OF BUILDING BLOCKS

- Various functionalities including amines, carboxylic acids, organohalides, boronic acids, etc.

IDEAL FOR RAPID IN-HOUSE LIBRARY BUILDING

- Fixed prices: 48 USD/100mg, 96 USD/1g
- No delays, all samples are delivered in 1-4 working days

IDEAL FOR DEL BUILDING BLOCK SUPPLY

- Quick turnaround time for follow-up orders
- Diverse set of mono- and bifunctional building blocks

**ACCELERATE DRUG DISCOVERY PROJECTS
WITH SUPERFAST BUILDING BLOCK SUPPLY!**
